## Catastrophic Coverage Stage

After your yearly out-of-pocket drug costs reach \$2,100, you pay \$0 for all covered prescription drugs for the remainder of the year.

You won't pay more than \$35 for a one-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it's on, even if you haven't paid your deductible. During the Catastrophic Coverage Stage, you pay \$0 for all covered insulin products.

Most adult Part D vaccines, including shingles, tetanus and travel vaccines, are covered by our plan at no cost to you across all Part D benefit stages, even if you haven't paid your deductible. Refer to your plan's "Drug List" (Formulary) or contact Member Services for coverage and cost-sharing details about specific vaccines.

Some of our network pharmacies have preferred cost-sharing. You may pay less for certain drugs if you use these pharmacies. Your cost-sharing may vary depending on the pharmacy you choose (e.g., Preferred Retail, Standard Retail, Preferred Mail-Order, Standard Mail-Order, Long Term Care (LTC), Home infusion, etc.) or whether you receive a one-month or a three-month supply or when you enter another phase of the Part D benefit or if you receive "Extra Help." For more information, please call our Member Services at the number provided in this document or access your Evidence of Coverage online. If you reside in a long-term care facility, your cost-sharing for a 31-day supply is the same as at a standard retail pharmacy for a 30-day supply. You may get drugs from an out-of-network pharmacy, but may pay more than you pay at an in-network pharmacy.
